#### Description of problem:

When navigating to the content hosts page on activation keys, Environment and Content Views are not shown on the UI for registered hosts.

**Version-Release number of selected component (if applicable):** 6.14.0

\*How reproducible:\*100%

#### Steps to Reproduce:

1. Register Host with activation keys using non-library/default CV/LCE
2. Navigate to Content -> Activation keys
3. Navigate to Associations -> Content Hosts
4. Verify that Environment and Content View info should be shown for registered hosts.

**Actual results:** No info is shown on the UI for Environment and Content View(blank fields)

**Expected results:** Registered host should show its Environment and Content View that was used during registration
