

Foreman - Bug #36517

Host count for IPv6 subnet is always 0 and links to a wrong search

06/19/2023 08:58 AM - Ewoud Kohl van Wijngaarden

Status: Ready For Testing	
Priority: Normal

Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/9739	
Description	
If you go to the subnet list there is a column Host count but for IPv6 it's always 0. The search links to subnet.name= instead of subnet6.name.

Refs #36517 - Correct host search for IPv6 on subnet list

The search linked to subnet.name= instead of subnet6.name, which meant there was nothing found.

This doesn't address the bug that it doesn't look at IPv6 subnets for the count.
