

Foreman - Feature #3652

Add explicit way for API consumers to specify all pages in an index request

11/14/2013 04:39 PM - Walden Raines

Pull request:	
Description	
From: https://github.com/foreman/foreman/pull/119/files#r7659148	
Currently a user must specify <code>per_page=<some large number></code> in order to ensure they receive all members of a collection. We ought to allow a more explicit method of doing this such as <code>per_page=all</code> .

- Status changed from New to Duplicate

this is not a bug. csv output is paginated. we can't ensure returning all items, because it will fail for large lists. This ticket is a dup of [#3898](#)
