

Katello - Feature #36539

Allow deleting tags and untagging manifests from Katello

06/27/2023 02:36 PM - Samir Jha

Status: New	
Priority: Normal	
Assignee:	
Category: Repositories	
Target version: Katello 4.13.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>For some reason (Probably Pulp2 specific reasons) we don't allow deletion of docker tags or untagging manifests. These workflows are supported in pulp_container and we should also support these in katello.</p> <p>Refer to https://docs.pulpproject.org/pulp_container/workflows/manage-content.html#remove-content-from-a-repository for more details.</p> <p>Ina's message prompting this feature request in katello:</p> <pre>you can 1) delete tag, and it will delete it's manifest. blob(unreferenced by other manifests), et c 2) untag the manifest and that will only remove tag</pre>	

History

#1 - 06/28/2023 05:44 PM - Samir Jha

- Category changed from Container to Repositories
- Target version set to Katello 4.11.0
- Triaged changed from No to Yes

#2 - 12/20/2023 04:20 PM - Samir Jha

- Target version changed from Katello 4.11.0 to Katello 4.13.0
