

OpenSCAP - Feature #36738

Ability to run playbook/script from OpenSCAP report

09/12/2023 12:09 PM - Oleh Fedorenko

Status: Closed	
Priority: Normal	
Assignee: Oleh Fedorenko	
Category:	
Target version:	
Difficulty:	Fixed in Releases: foreman_openscap 8.0.0
Triaged: Yes	Found in Releases:
Bugzilla link: 2121057	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman_openscap/pull/546	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=2121057 Description of problem: The ability to run a playbook from an OpenSCAP report in Satellite. When visiting the SCAP report you can see the playbook or bash script to fix a certain failure, however you cannot directly run it from the report, you have to copy the contents and create a new job template or run it against the host via a REX job. It would be very user friendly if we could remediate directly from the SCAP report. Version-Release number of selected component (if applicable): 6.11
