Target version:			
Difficulty:		**Fixed in Releases:**	3.10.0, 3.9.0
Triaged:	No	**Found in Releases:**	
Bugzilla link:	2153548	**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/9837, https://github.com/theforeman/foreman/pull/9943		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=2153548

1. Proposed title of this feature request : While provisioning the hosts should be registered using the Global Registration Template

3. What is the nature and description of the request?
- Customer is using a clone template of Kickstart default template to provision the host.

4. Why does the customer need this? (List the business requirements here)
- Since katello-ca rpm is deprecated customers concern is it should not be used and the new method i.e. Global Registration Template should be used

5. How would the customer like to achieve this? (List the functional requirements here)
- By using the Global Registration Template while provisioning.

6. For each functional requirement listed, specify how Red Hat and the customer can test to confirm the requirement is successfully implemented.
- By provisioning a host using Kickstart default template.

7. Is there already an existing RFE upstream or in Red Hat Bugzilla?
- NA

8. Does the customer have any specific timeline dependencies and which release would they like to target (i.e. RHEL5, RHEL6)?
- NA

9. Is the sales team involved in this request and do they have any additional input?
- No

10. List any affected packages or components.
- Provisioning, Katello-ca

11. Would the customer be able to assist in testing this functionality if implemented?
- Yes

Associated revisions

Revision dd26cc3f - 11/30/2023 07:31 PM - Nofar Alfassi

Fixes #36747 - create new snippet for subscription-manager setup

This snippet replaces the use of the katello-ca-consumer RPM for host
registration. It incorporates the necessary code from the Global Registration
template to streamline subscription-manager configuration during provisioning.
