

Katello - Bug #36773

'hammer erratum list' Gives 'Error: environment not found' If '--lifecycle-environment' Is Used.

09/22/2023 09:41 PM - Lucy Fu

Status: Closed	
Priority: Normal	
Assignee: Lucy Fu	
Category: Errata Management	
Target version: Katello 4.11.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 2097084	Red Hat JIRA:
Pull request: https://github.com/Katello/hammer-cli-katello/pull/908	
Description	
Description of problem: Executing: 1. hammer erratum list \ --organization-id=1 \ --content-view=rhel77_e4s \ --lifecycle-environment=Development \ --errata-restrict-installable=yes ...results in this output: Error: environment not found. (I get the same error if I specify "Library".) Yet, this slightly different command: 1. hammer erratum list \ --organization-id=1 \ --content-view=rhel77_e4s \ --lifecycle-environment-id=2 \ --errata-restrict-installable=yes ...succeeds. FYI, lifecycle environment ID #2 is "Development": 1. hammer lifecycle-environment list \ --organization-id=1 --- ----- ----- ID NAME PRIOR --- ----- ----- 2 Development Library 1 Library --- ----- ----- Version-Release number of selected component (if applicable): tfm-rubygem-hammer_cli-2.5.1-1.el7sat.noarch
