

Foreman - Bug #36792

"Label" field marked as mandatory in WebUI when creating an organization

09/29/2023 12:01 PM - Maximilian Kolb

Status:	New	
Priority:	Low

Pull request:		

Description

In general, mandatory fields are marked with "*" to show the user that input is required. However, when creating an organization, entering a name is sufficient.

tested on Foreman 3.8:

The screenshot shows the Foreman web interface for creating a new organization. The breadcrumb trail is 'Organizations > New Organization'. The form is divided into three steps: '1 Create Organization' (active), '2 Select Hosts', and '3 Edit Properties'. The 'Name' field is highlighted with a blue glow and has an asterisk (*). The 'Label' field also has an asterisk (*). The 'Simple Content Access' checkbox is checked. The 'Description' field is a large text area. At the bottom are 'Submit' and 'Cancel' buttons.

If this is recognized as a bug, I'll adjust the documentation:

https://docs.theforeman.org/nightly/Managing_Organizations_and_Locations/index-katello.html#Creating_an_Organization_managing-organizations-locations

History

I think the label should be auto-created like everywhere else and perhaps like it is done here in the background if kept empty. This would make it consistent with other objects like Products or Repositories.
