this is fixed in fog version 1.21. we currently run foreman 1.4.2 with fog 1.19. hopefully this is fixed with the next forman update.
in the meantime you just have to change

```
:thin => vol.backing.thinProvisioned,
```

to

```
:thin => (vol.backing.thinProvisioned rescue(nil)),
```

in fog/lib/fog/vsphere/requests/compute/list_vm_volumes.rb
