<b>Description of problem:</b> `hammer repository info` command doesn't return content counts for ansible collection repos.	
<b>Version-Release number of selected component (if applicable):</b> Any Katello with ansible collections repos	
<b>How reproducible:</b> always	
<b>Steps to Reproduce:</b> 1. Sync some AC repo (I used galaxy.ansible.com and this requirement: {collections: [{name: 'theforeman.foreman', 'version': '2.1.0'}, {name: 'theforeman.operations', 'version': '0.1.0'}]}) 2. run hammer repository info --id <repo-id>	
<b>Actual results:</b>
