<b>Pull request:</b> <a href="https://github.com/Katello/katello/pull/10639">https://github.com/Katello/katello/pull/10639</a>	
<b>Description</b> Since pulp_deb has moved from simple to structured mode for debian repositories, Katello needs to be extended to use structured pulp_deb upload functionality. With this extension, the file is uploaded to the content API endpoint using the repository parameter, and ensure the upload creates all needed structure content in pulp_deb.
