<b>Category:</b> Puppet Reports	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> No	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/theforeman/hammer-cli-foreman-puppet/pull/39">https://github.com/theforeman/hammer-cli-foreman-puppet/pull/39</a>	
<b>Description</b>	
Everytime I get a report using the foreman reports tool on the puppetmaster, it fails to process the report. Specifically, I get this error for every host report recieved:  failed to process report for lvxentest01.lightningsource.com due to:undefined method `[]' for #<Puppet::Util::Metric:0x2aaaabdbea18>  Attached is the report.	

#### History

##### #1 - 10/06/2009 04:47 PM - Carl Caum

Additional Info

Foreman Version: latest stable (0.1-1)

Ruby Version: 1.8.5

OS: CentOS 5.3

##### #2 - 10/06/2009 05:01 PM - Carl Caum

I've narrowed down this issue to lines 55 and 56 in the app/models/report.rb file. However I don't see what the problem is. When these lines are removed, Foreman starts to successfully process MOST reports sent to it. However, I get different exceptions thrown when they are removed.

that is strange, I've imported your report and it went just fine.

which version of Puppet are you using?

##### #4 - 10/06/2009 07:30 PM - Carl Caum

- Status changed from New to Closed

Ugh, somehow that box was still running puppet version 0.24.5. I updated to 0.24.8 and everything's working fine.
