

Katello - Bug #37045

Package install/remove job templates failing due to incorrect method calls

01/11/2024 05:43 PM - Jeremy Lenz

Status: Duplicate	
Priority: High	
Assignee: Jeremy Lenz	
Category:	
Target version: Katello 4.12.0	
Difficulty: easy	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
In https://github.com/Katello/katello/pull/10744 package_names_for_job_template was extracted into two new methods, yum_names_for_job_template and deb_names_for_job_template	
These new methods accept only keyword arguments, but are called only with regular non-kwargs.
