

## Katello - Bug #37072

### Package update chooses latest version instead of input version

01/19/2024 05:40 PM - Ian Ballou

<b>Status:</b> New	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Hosts	
<b>Target version:</b> Katello 4.13.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
<p>For some RPMs, notably crypto-policies, when upgrading via the host details page, the chosen upgrade version is ignored and it gets the latest version.</p> <p>The chosen version does make it into the "Selected update versions", but the rendered template ends up with the latest version.</p> <p>It's likely a bug with <code>`def package_names_for_job_template`</code>.</p> <p>To reproduce:</p> <ol style="list-style-type: none"><li>1) Create a RHEL 9 machine with crypto-policies-20221215-1.git9a18988.el9.noarch</li><li>2) Sync RHEL 9 appstream + baseos</li><li>3) Try to upgrade to crypto-policies-scripts-20221215-1.git9a18988.el9_2.1.noarch via the dropdown on the right side of the upgradable RPM</li></ol> <p>Attached screenshot shows the issue.</p> <p>Unsure how many versions this affects. Tested on Katello 4.12-devel</p>	

#### History

##### #1 - 01/19/2024 05:40 PM - Ian Ballou

- Target version changed from Katello 4.11.1 to Katello 4.12.0

##### #2 - 01/24/2024 06:54 PM - Partha Aji

- Triaged changed from No to Yes

##### #3 - 03/27/2024 01:33 PM - Quinn James

- Target version deleted (Katello 4.12.0)

- Triaged changed from Yes to No

Removing target version for 4.12 RC/GA re-triage

##### #4 - 03/27/2024 05:54 PM - Jeremy Lenz

- Target version set to Katello 4.13.0

- Triaged changed from No to Yes
