<b>Description</b>	
<p>The UI navigation uses title case (example: "Content View" in navigation) while other UI elements use sentence case ("Add content views").</p> <p>This causes problems in the documentation. See <a href="https://github.com/theforeman/foreman-documentation/issues/2553">https://github.com/theforeman/foreman-documentation/issues/2553</a>.</p> <p>Red Hat products are required to follow Patternfly guidelines, which specify that UI elements use sentence case. See <a href="https://www.patternfly.org/ux-writing/capitalization">https://www.patternfly.org/ux-writing/capitalization</a>.</p>
