<b>Category:</b>	Repositories	
<b>Target version:</b>	Katello Next	
<b>Difficulty:</b>	easy	<b>Fixed in Releases:</b> Katello 4.13.0
<b>Triaged:</b>	Yes	<b>Found in Releases:</b> Katello 4.12.0
<b>Bugzilla link:</b>		<b>Red Hat JIRA:</b>
<b>Pull request:</b>	<a href="https://github.com/Katello/katello/pull/10980">https://github.com/Katello/katello/pull/10980</a>	
<b>Description</b> <p>Due to the tests for <a href="https://community.theforeman.org/t/foreman-and-fedora-silverblue-clients/37744">https://community.theforeman.org/t/foreman-and-fedora-silverblue-clients/37744</a> I noticed that it takes days to sync the Fedora OSTree endpoint, this happens because the Fedora endpoint houses all old, new versions and variants.</p> <p>As far as I could see Pulp3 is capable of setting include_refs and exclude_refs for OSTree repository remotes, this would be a good addition to have available in Katello.</p> <p>I've started to look into this already, and looks like it should be a rather easy addition.</p>
