Katello - Feature #37383

Add Include Refs and Exclude Refs options for OSTree repository type

04/24/2024 10:06 PM - Lukas Magauer

Status:	Ready For Testing		
Priority:	Normal		
Assignee:	Lukas Magauer		
Category:	Repositories		
Target version:	Katello Next		
Difficulty:	easy	**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	Katello 4.12.0
Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/Katello/katello/pull/10980		

Description

Due to the tests for https://community.theforeman.org/t/foreman-and-fedora-silverblue-clients/37744 I noticed that it takes days to sync the Fedora OSTree endpoint,
this happens because the Fedora endpoint houses all old, new versions and variants.

As far as I could see Pulp3 is capable of setting include_refs and exclude_refs for OSTree repository remotes, this would be a good addition to have available in Katello.

I've started to look into this already, and looks like it should be a rather easy addition.
