Foreman - Feature #3751

Add id='new' to all buttons/links that create new objects

11/25/2013 04:00 PM - Og Maciel

Pull request:			

Description		
QE would like to request that every button/link responsible for creating new objects (i.e. Environments, Users, Roles, OS, etc) have a id='new' attribute for easier locating UI elements during automation.

Revision bfee97b6 - 02/24/2014 04:45 PM - Lukas Zapletal

fixes #3751 - new/edit submit buttons now have id

History

#1 - 11/25/2013 04:05 PM - Og Maciel

Should have also added "Delete/Edit/Cancel/Yes/No" to that list

#2 - 11/25/2013 05:48 PM - Ohad Levy

- Status changed from New to Feedback

rails generate that ID by default to all forms, for example, a new domain would have id=new_domain, editing a domain would have id=edit_domain_<numberical_id>

#3 - 11/25/2013 05:49 PM - Ohad Levy

- Status changed from Feedback to New

oh, i didnt read it right, you were not only talking about the form, reopening.

Og please test this patch if it works for you. Should cover most cases.

#10 - 01/13/2014 02:34 PM - Og Maciel

Lukas, I applied this patch and restarted foreman. Then I tried to create a new operating system via the web ui. The **New Operating system** button had the following markup:

```
<div class="btn-toolbar pull-right">
    <a class="btn btn-success" href="/operatingsystems/new"></a>
</div>
```

I clicked it and then looked at the source for the **Cancel** and **Submit** buttons:

```
<form id="new_operatingsystem" class="form-horizontal well" method="post" action="/operatingsystems" accept-charset="UTF-8">
    <div class="fr close-button"></div>
    <div style="margin:0;padding:0;display:inline"></div>
    <ul class="nav nav-tabs" data-tabs="tabs"></ul>
    <div class="tab-content"></div>
    <div class="form-actions">
        <a class="btn btn-default two-pane-close" href="/operatingsystems"></a>
        <input class="btn btn-primary" type="submit" value="Submit" name="commit"></input>
    </div>
</form>
```

I expected to see unique IDs for the buttons but that doesn't seem to be working for this page. To be clear then, I see that the form has a unique ID but not the buttons. Is this the intention with the patch?

#11 - 01/13/2014 10:55 PM - Og Maciel

ok, so I missed one part of the patch. Once that was fixed I did get a ID for the submit buttons but after talking to Lukaz, he will also try to add IDs to more types of buttons (e.g. Cancel, Yes, No, etc)

#12 - 02/06/2014 12:06 PM - Anonymous

- Target version changed from 1.9.2 to 1.9.1
