Foreman - Refactor #3752

Move all data addition in DB migrations into a seed script

11/25/2013 04:59 PM - Dominic Cleal

Status:	Closed		
Priority:	Normal

Pull request:			

Description

Our DB migrations perform a number of database setup tasks, from loading default templates through to creating the default user.

These can be difficult to maintain as the codebase evolves, plus makes it harder for us to update the default data provided in Foreman so moving to a separate seed script should make life easier.
