Description		
right now, if you try to access a route in the v2 API that doesn't exist, it spits back html		

History

#1 - 06/04/2014 12:13 PM - Eric Helms

- Project changed from Katello to Foreman
- Subject changed from API response for unknown route to API response for unknown route returns HTML page
- Category set to API

Hitting a fake API route in production leads to an HTML response.

GET <http://<hostname>/api/v2/my/fake/route>

Result:

```
<!DOCTYPE html>
<html>
<head>
<title>The page you were looking for doesn't exist (404)</title>
<style type="text/css">
body { background-color: #fff; color: #666; text-align: center; font-family: arial, sans-serif; }
div.dialog {
width: 25em;
padding: 0 4em;
margin: 4em auto 0 auto;
border: 1px solid #ccc;
border-right-color: #999;
border-bottom-color: #999;
}
h1 { font-size: 100%; color: #f00; line-height: 1.5em; }
</style>
</head>
<body>

<div class="dialog">
<h1>The page you were looking for doesn't exist.</h1>
<p>You may have mistyped the address or the page may have moved.</p>
</div>
</body>
</html>
```
