Pull request:	
Description hammer -v host facts --name vm1.mbacovsk.redhat.com Retrieved data: { "total" => 1, "subtotal" => 1, "page" => 1, "per_page" => 20, "search" => " host = vm1.mbacovsk.redhat.com", "sort" => { "by" => nil, "order" => nil }, "results" => { "vm1.mbacovsk.redhat.com" => { "uniqueid" => "00000000", "augeasversion" => "0.9.0", "physicalprocessorcount" => "1", "processorcount" => "1", "network_lo" => "127.0.0.0", "ipaddress_lo" => "127.0.0.1", "swapfree" => "1.47 GB", "swapsize" => "1.47 GB", "mtu_eth0" => "1500", "facterversion" => "1.6.18", "mtu_lo" => "16436", "rubyversion" => "1.8.7", "network_eth0" => "192.168.122.0", "ipaddress_eth0" => "192.168.122.138", "ipaddress" => "192.168.122.138", "uptime_hours" => "197", "selinux_policyversion" => "24", "netmask_lo" => "255.0.0.0", "netmask_eth0" => "255.255.255.0", "netmask" => "255.255.255.0" } } } } Pagination works, but from the metadata I wouldn't guess there are more pages
