

Foreman - Bug #3793

api base class cannot find katello engine classes

12/03/2013 02:55 PM - Thomas McKay

Description

[https://github.com/theforeman/foreman/blob/develop/app/controllers/api/base\\_controller.rb?source=cc#L35](https://github.com/theforeman/foreman/blob/develop/app/controllers/api/base_controller.rb?source=cc#L35)

```
def resource_class
  @resource_class ||= resource_name.classify.constantize
end
```

When katello engine api controllers extend Foreman::Api::V2::BaseController and attempt to use the base helper methods such as

```
before_filter :find_resource
```

the 'resource\_class' fails because it cannot find the class.

If the foreman core is going to truly support engines, this needs to be fixed.
