

## Foreman - Feature #3842

### Add subscription-manager snippet

12/10/2013 10:04 AM - Dominic Cleal

<b>Pull request:</b>	
<b>Description</b>	
<p>The default RHEL kickstart template uses <code>rhnreg_ks</code> in the <code>redhat_register</code> snippet to register the newly provisioned host, however this is now deprecated in favour of <code>subscription-manager</code>.</p> <p>A new snippet should be added for <code>rhsm</code> support and the templates updated to use it. The snippet should support enabling non-default repos too.</p> <p>(<a href="https://bugzilla.redhat.com/show_bug.cgi?id=1039910">https://bugzilla.redhat.com/show_bug.cgi?id=1039910</a>)</p>

##### Revision 15666c86 - 01/29/2014 06:46 AM - Sam Kottler

Fixes #3842: add support for registering with RHSM

#### History

##### #1 - 01/09/2014 02:55 PM - Dominic Cleal

- Target version set to 1.9.2

##### #2 - 01/15/2014 07:13 PM - Sam Kottler

- Assignee set to Sam Kottler

##### #3 - 01/20/2014 02:30 PM - Dominic Cleal

Please ensure it quotes activation keys to prevent a repeat of [https://bugzilla.redhat.com/show\\_bug.cgi?id=1051580](https://bugzilla.redhat.com/show_bug.cgi?id=1051580).

##### #4 - 01/20/2014 02:35 PM - Dominic Cleal

Here's a starting point, we need to be able to replace this snippet:

[https://github.com/Katello/foreman-katello-engine/blob/master/app/views/unattended/snippets/\\_subscription\\_manager\\_registration.erb#L7](https://github.com/Katello/foreman-katello-engine/blob/master/app/views/unattended/snippets/_subscription_manager_registration.erb#L7)

Don't forget, it goes to `community-templates`, then we'll just resync on the next Foreman release.

##### #5 - 01/22/2014 02:15 PM - Dominic Cleal

- Status changed from New to Assigned

##### #6 - 01/27/2014 07:56 PM - Anonymous

I ran into this today and FWIW here my findings (with Dominic's help):

with hosted RHN there's no possibility to use activation keys at the moment, so I use this for now:

```
subscription-manager register --username <%= @host.params['rhn_username'] %> --password <%= @host.params['rhn_password'] %> --name <%= @host.name %> --auto-attach
```

and to get the the optional channel:

yum-config-manager --enable rhel-<%= @osver %>-server-optional-rpms

- Status changed from Assigned to Ready For Testing

<https://github.com/theforeman/community-templates/pull/53>

**#8 - 02/06/2014 12:02 PM - Anonymous**

- Target version deleted (1.9.2)

- translation missing: en.field\_release set to 6

**#9 - 02/06/2014 12:02 PM - Anonymous**

- Target version set to 1.9.2

**#10 - 02/06/2014 12:11 PM - Anonymous**

- Target version changed from 1.9.2 to 1.9.1

**#11 - 02/07/2014 11:02 AM - Sam Kottler**

This got finished in sprint 19, but didn't get closed automatically for some reason. There is a final pending patch [1] that needs to get merged before I close this.
