

Foreman - Refactor #390

Ensure that a user account is always selected

09/29/2010 01:46 PM - Paul Kelly

Status: Closed	
Priority: Normal	
Assignee: Paul Kelly	
Category: Authentication	
Target version: 0.1-6	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:

Pull request:	
Description Later revisions of the foreman code base require that there is always a user account associated with the current session. If logins are enabled then the account is obviously the user's account. If logins are disabled then all activity is associated with the built-in admin account.
