

Foreman - Feature #3909

compute resources prevent or disassociate host from VM prevent vm deletion

12/18/2013 02:04 PM - Jelle B.

Status:	Closed	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal	
Assignee:		
Category:	VM management	
Target version:	1.5.0	
Difficulty:		
Triaged:		
Bugzilla link:		
Pull request:		
Description		
As discussed on IRC.		
Create a solution where by a host in foreman can be deleted without deletion of the actual virtual host when using compute resources.		
Chat log to clarify :		
<i>[14:14] <cyberkov> hmm. is it somehow possible to disable the deletion of a VM on the Compute Resource when deleting it from Foreman?</i>		
<i>[14:15] <karim> cyberkov, maybe unmanaging it first</i>		
<i>[14:15] <Dominic> cyberkov: only be manually disassociating the compute_resource_id and uuid in the hosts table in the DB, you can't through the UI</i>		
<i>[14:17] <cyberkov> thanks :) Dominic: so unmanaging it (as karim meant) is not sufficient i guess?</i>		
<i>[14:17] <Dominic> I don't think that works, I remember somebody saying recently it still deleted the VM..</i>
