History

#1 - 01/11/2014 09:58 PM - Anonymous

With Puppet 3.4.2:

```
# puppet cert list
"tmptst" (SHA256) C4:92:8B:FE:80:4B:BA:B3:D8:17:AA:FD:15:83:FA:55:D5:99:BF:78:2A:B0:86:18:69:F0:53:9A:CE:2A:D1:9F
# puppet cert clean tmptst
Error: Could not find a serial number for tmptst
# puppet ca destroy tmptst
Notice: Removing file Puppet::SSL::CertificateRequest tmptst at '/var/lib/puppet/ssl/ca/requests/tmptst.pem'
# puppet ca destroy tmptst.test.xxx.de
Notice: Removing file Puppet::SSL::Certificate tmptst.test.xxx.de at '/var/lib/puppet/ssl/ca/signed/tmptst.test.xxx.de.pem'
Deleted for tmptst.test.xxx.de: Puppet::SSL::Certificate
# puppet cert clean tmptst.test.xxx.de
Notice: Revoked certificate with serial 6
```

#2 - 11/04/2014 05:30 AM - cristian falcas

I was wondering if this issue will be fixed any time soon. It will be nice to delete pending certificates from foreman.

#3 - 11/04/2014 06:21 PM - Anonymous

I'll have a look at that, as soon as I have more time. If it's a big problem for you, please yell and I try to find somebody else.

#4 - 11/10/2014 05:42 AM - Anonymous

My inital description was wrong, here the correct one:

```
Puppet 2.7: puppetca --clean <fqdn>
Puppet 3.0: puppet ca destroy <fqdn>, while puppet cert clean <fqdn> does not work for CSRs
```

#5 - 11/10/2014 05:42 AM - Anonymous

Puppet Issue: <https://tickets.puppetlabs.com/browse/PUP-1916>

#6 - 03/22/2016 04:09 AM - Dominic Cleal

- Has duplicate Bug #14304: Delete a certificate that what not already signed added

#7 - 04/01/2016 12:45 PM - Alex Fisher

I bumped into this too whilst testing the smart proxy with puppet 4 (which needs a couple of small mods to work BTW).

```

I, [2016-04-01T17:14:24.164864 #12164] INFO -- : 10.160.248.69 - - [01/Apr/2016:17:14:24 +0100] "DELETE /puppet/ca/host.dmz.local HTTP/1.1" 404 68 1.7171
```

```
puppet cert clean certname
```

won't remove unsigned certificate requests.
but

```
puppet ca destroy certname
```

does.

I'm not sure what versions of puppet support that command though.

#8 - 04/08/2016 05:02 AM - Dominic Cleal

- Has duplicate Bug #14543: PupeptCA Smart Proxy should "rm" certificate request files added

#9 - 04/27/2016 10:39 AM - Alex Fisher

I'm confused as to what version of puppet I actually tested 'puppet ca destroy' in...
Apparently not a version of puppet 4 though.
As <https://tickets.puppetlabs.com/browse/PUP-6179> has only just been fixed.

Either way, in puppet 4.4.2 'puppet ca destroy' can be used successfully.

```
[root@devops01 ~]# puppet --version
4.4.2
[root@devops01 ~]# puppet cert list
"devops02.example.com" (SHA256) 19:47:28:8C:E9:D6:CF:49:50:31:00:CF:C4:94:E6:7E:F6:F8:65:F4:2C:B7:62:E5:0A:E4:12:EF:88:6A:D6:75
[root@devops01 ~]# puppet cert destroy "devops02.example.com"
Error: Could not find a serial number for devops02.example.com
[root@devops01 ~]# puppet cert clean "devops02.example.com"
Error: Could not find a serial number for devops02.example.com
[root@devops01 ~]# puppet ca destroy "devops02.example.com"
Notice: Removing file Puppet::SSL::CertificateRequest devops02.example.com at '/etc/puppetlabs/puppet/ssl/ca/requests/devops02.example.com.pem'
Deleted for devops02.example.com: Puppet::SSL::CertificateRequest
[root@devops01 ~]# puppet cert list
[root@devops01 ~]#
```

#10 - 03/29/2017 05:26 AM - Anonymous

- Related to Feature #19066: Use Puppetserver's CA API instead of CLI commands added

#11 - 06/05/2019 08:07 PM - Anonymous

- Assignee deleted (Anonymous)

#12 - 06/06/2019 02:20 PM - Ewoud Kohl van Wijngaarden

- Status changed from New to Rejected

This can be closed given we're going to drop Puppet 3 and it works with newer versions.
