

## Foreman - Bug #4003

### Nested host group does not show inherited puppet classes during creation.

01/13/2014 03:16 PM - Petter Hassberg

<b>Status:</b> Resolved	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Web Interface	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>

<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
To recreate bug:	
<ol style="list-style-type: none"><li>1. create a hostgroup</li><li>2. add puppet classes to host group</li><li>3. nest a new hostgroup under the first one</li><li>4. go to puppet tab. No puppet classes are shown</li><li>5. click submit</li><li>6. edit the new host group. Puppet classes are shown this time.</li></ol>	
We expected that during step 4. the puppet classes included in parent hostgroups to be shown
