Katello - Feature #4044

In order to aid in destroying a content view, there needs to be a way to see its associated content

01/16/2014 05:47 PM - Katello Issue Migration

Description

Per https://github.com/Katello/katello/pull/3290, it would be helpful to see its associated content so one could unassociate any keys, systems, distributors in order to destroy a content view. Right now we just have an ambiguous message.
