Associated revisions

Revision e343fa48 - 06/25/2014 12:56 PM - Eric Helms

Fixes #4045: Repository name and label validations properly handled.

Repository name and label validation were being handled improperly and without the same format as other model validations. This creates and proper active record validators for each and provides a message indicating to the user the scope of the validation (i.e. Product).

Revision a64012aa - 06/25/2014 02:07 PM - Eric Helms

Merge pull request #4274 from ehelms/fixes-4045

Fixes #4045: Repository name and label validations properly handled.

Revision aca4af5b - 06/25/2014 04:56 PM - Eric Helms

Fixes #4045: Repository name and label validations properly handled.

Repository name and label validation were being handled improperly and without the same format as other model validations. This creates and proper active record validators for each and provides a message indicating to the user the scope of the validation (i.e. Product).

Revision 36caae4 - 06/25/2014 06:07 PM - Eric Helms

Merge pull request #4274 from ehelms/fixes-4045

Fixes #4045: Repository name and label validations properly handled.
