Description

Katello-cli is unable to use the pylint version that gets shipped with fedora 18, causing the fc19 build to fail. Some of the errors obtained by py lint are listed below.

...

```
cd /builddir/build/BUILD
+ cd katello-cli-1.5.2
+ PYTHONPATH=src/
+ pylint --rcfile=/etc/spacewalk-pylint.rc --additional-builtins=_ katello
```
