

Katello - Support #4083

Should manifest import rely on system tmp directory in all environments?

01/16/2014 05:47 PM - Katello Issue Migration

Status: Closed	
Priority: Normal	
Assignee:	
Category:	
Target version: Katello 2.0	
Triaged: Yes	Found in Releases:
Fixed in Releases:	
Description	
<p>The `queue_import_manifest` function has a hard requires on writing to the system's tmp/ directory. While this makes sense in production, I am not sure this should be the case in development environments.</p>
