Katello - Bug #4104

Organisation : some scenarios give ambigous results

01/16/2014 05:48 PM - Katello Issue Migration

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Hammer		
Target version:	Katello 2.0		
Difficulty:		**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:			

Description

com.redhat.qe.katello.tests.cli.OrgTests
test_UploadManifestDiffOrg
test_UploadManifestSameOrg

here I tried this scenarios manually

katello/headpin -u admin -p ** provider import_manifest --name "Red Hat" --org testorg --file "/tmp/manifest6M.zip"
Provider [Red Hat] failed to import manifest: This subscription management application has already been imported by another owner.

echo $?
0

The tests work correctly, but the exitcode should also be error code and not 0.

Please, refer tests here:
- http://hudson.rhq.lab.eng.bos.redhat.com:8080/hudson/view/qe-headpin/job/official-headpin-cli/53/ReportNG_Report/
