Description

Budner_ext module was refactored, there are no API changes, but there might be dragons. Part of this ticket is to upgrade version of bundler_ext in our repos and test Foreman nightly. Only post 1.4.

History

#1 - 06/06/2014 05:37 PM - Dominic Cleal

- Project changed from Foreman to Packaging

- Category deleted (Packaging)

I think Greg's planning to use this for the smart proxy move to bundler (part of modularisation) on Debian, tested successfully there.

#2 - 05/20/2017 04:32 AM - Anonymous

- Status changed from New to Resolved

this was done last year.
