

Foreman - Bug #4167

Password length verification doesn't work

01/23/2014 02:38 PM - Stephen Benjamin

Status:	Closed	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal	
Assignee:	Stephen Benjamin	
Category:	Security	
Target version:	1.5.0	
Difficulty:		
Triaged:

Pull request:		
Description		
In app/models/host/managed.rb:		
<pre>validates :root_pass, :length => {:minimum => 8, :message => _('should be 8 characters or more')}</pre>		
The length verification doesn't actually work. In host_common.rb, root_pass assignment is overridden so by the time it validates root_pass, it's already a hash (and over 8 chars).
