Description

Steps to reproduce:
1. create an organisation
2. create a domain with the above organisation selected
3. change to the organisation context context
4. edit the domain, click the organisations tab

Actual results:
organisations list is greyed out

Expected results:
organisations can be selected

I am having a hard time reproducing this. I created a NY Data Store organization and 3 new domains. Somehow all 3 domains were automatically associated to my existing ACME Corporation, so I edited them to have no organizations. I then shifted the context to NY Data Store and clicked on Domains. No domains are visible...
