

## Foreman - Bug #4287

### Template associations on HG & Env is broken

02/06/2014 06:23 PM - Greg Sutcliffe

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Greg Sutcliffe	
<b>Category:</b> Unattended installations	
<b>Target version:</b> 1.5.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b> Seems like the template associations are using OR instead of AND.  reproduce: <ul style="list-style-type: none"><li>• Ensure you have an os which can be provisioned, create a new host, use the OS, click Resolve Templates, see the default finish template</li><li>• Create a new finish template, associate it to a specific env &amp; hg</li><li>• Create a new host, assign the OS, HG, and env. Observe Resolve templates correctly showing the new template will be used</li><li>• Change the env and resolve again, the output still shows the new template (despite the env not matching)</li><li>• Change the HG and resolve again, the output now correctly goes back to the default finish template</li></ul>
