<b>Description</b>  When creating a User Group in the foreman UI, there is not a maximum length indicated for the name. Instead, it will allow names up to 255 chars long. Any name longer than 255 receives this error after clicking submit:  ActiveRecord::StatementInvalid PGError: ERROR: value too long for type character varying(255) : INSERT INTO "usergroups" ("created_at", "name", "updated_at") VALUES (\$1, \$2, \$3) RETURNING "id" app/controllers/usergroups_controller.rb:12:in `create' app/models/concerns/foreman/thread_session.rb:33:in `clear_thread' lib/middleware/catch_json_parse_errors.rb:9:in `call'
