Foreman - Bug #4296

Editing an organization does not show what users are available

Description

Even though I have a few users in my instance, editing an organization via the web ui does not show me any user available for selection (see screenshots). Is it possible that the **All Users** checkbox is broken/not triggering an event? Firebug does not show any errors.

are you in a Org context or any context?

#2 - 02/11/2014 02:56 PM - Og Maciel

My context switcher doesn't seem to be working so I may be using "any context"
