

Foreman - Bug #4302

dbmigrate fails if :foreman_url is not correctly set

02/10/2014 09:11 AM - Dennis Benndorf

Status: Duplicate	
Priority: Normal	
Assignee:	
Category: DB migrations	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
When updating from 1.3.2 to 1.4 db_migrate will fail with the following message:	
<pre>root@puppet:/usr/share/foreman# foreman-rake db:migrate UpdateForemanUrl: migrating ===== rake aborted! An error has occurred, this and all later migrations canceled: ActiveRecord::ReadOnlyRecord Tasks: TOP => db:migrate (See full trace by running task with --trace) Changing the Foreman URL in /etc/foreman/settings.yaml from :foreman_url: foreman to :foreman_url: https://foreman.* fixes this!</pre>
