Description

See attached screenshot, look at the "Host Pool" section towards the bottom of the upper box - it's falling outside and is in the whitespace between boxes.

Revision 94240a18 - 07/31/2014 02:58 PM - marcelo veglienzone

fixes #4340 - 1.5 fix: Unassigned hosts outside stats box

Decided for auto instead since hidden could potentially clip content. Auto will add a scrollbar if need be but should never happen since we only define the min-height.
