Foreman - Bug #4348

Host group parameters tab doesn't show inherited parameters

02/14/2014 03:43 PM - Dominic Cleal

Status:	Duplicate		
Priority:	Normal

Bugzilla link:		**Red Hat JIRA:**	
Pull request:			

Description

When viewing the parameters tab of a child/nested host group, the parameters inherited from the parent host group aren't shown. ("Global" parameters, not smart class parameters.)

Related issues:

Is duplicate of Foreman - Bug #4596: cannot change parent of hostgroup	**Closed**	**03/08/2014**

I'd like to put in my vote to have this fixed, please :)

#2 - 07/10/2014 03:07 AM - Dominic Cleal

- Blocks Tracker #4470: Usability of parameters and overrides added

#3 - 10/05/2014 06:48 AM - Ori Rabin

- Status changed from New to Assigned

- Assignee set to Ori Rabin

#4 - 10/05/2014 08:27 AM - Ori Rabin

- Status changed from Assigned to Need more information

Can I get an example?

if I add a smart variable to a puppetclass that is inherited it will appear in the child hostgroup.
if I add a global parameter to a hostgroup it will appear in the child hostgroup.

what isn't inherited correctly?
