| Description | |
| Using the web UI to repo discovery the url http://omaciel.fedorapeople.org/ , the UI does not seem to actually pool the generated task, so the end result is that you do not see any discovered repos show up in the UI. Sadly, there's not much information I can provide now, not even logs, but I talked to @jsherrill and he says he can reproduce it too and will look into it. | |
