Foreman - Bug #443

The host index operation fails when not including a :fact_values eager loader

11/09/2010 09:05 AM - Paul Kelly

Pull request:			

Description

In the case that a user with a fact_filter tries to index the hosts, the operation will fail unless there is an eager load of fact_values. Eager loading fact_values is slow.

Associated revisions

Revision 02acc2ec - 11/11/2010 08:50 AM - Ohad Levy

Fixes #443 - remove unnecassary fact_values loading

This fix does not explain why you need to include :fact_values to
avoid an SQL error. However this includes the fact_values when you do
really need them and does not when you don't

Refactored show_hosts and index
Added a test for json + fact filter
Updated default access permsssions to add support for show_hosts functions
