<b>Pull request:</b>	<a href="https://github.com/foreman/smart-proxy/pull/201">https://github.com/foreman/smart-proxy/pull/201</a>	
<b>Description</b> Now the question is how deep we want to go. Smart proxy can be configured to spawn virsh via sudo and other stuff. I guess we should limit what is covered by the policy.

**Revision f4a857f6 - 11/28/2014 10:38 AM - Lukas Zapletal**

Fixes #4464 - policy for foreman-proxy

#### History

**#1 - 02/26/2014 02:58 PM - Dominic Cleal**

Agreed... the trouble is also that the proxy codebase is messy and it has a lot of ugly implementations. I think the policy should probably be very tunable depending on what type of work the proxy is configured for.
