

Foreman - Bug #4526

Missing 'Any Location'-Option in Location Selection List

03/03/2014 03:29 PM - Andreas Boessl

Status: Resolved	
Priority: Normal	
Assignee:	
Category: Organizations and Locations	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases: 1.4.1
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Foreman Web-GUI defaults to show up "Any Location" which is accessible by the user. Unfortunately there is no option to return to "Any Location" once a specific location is selected. It seems that returning to "Any Location" view is only possible via relogin. Same applies to Any Organization

- Status changed from New to Resolved

I believe this is no longer the valid, user "any context" is supported for a while, verified with 1.13. Feel free to reopen if you encounter issues with recent Foreman version.
