Foreman - Bug #4548

[foretello] cannot search organization by title

03/05/2014 02:31 AM - Thomas McKay

Description

This issue only appears in foretello mode but is related to core organization model.

Entering "title =" into the UI widget generates the following error.

Organization Load (0.3ms) SELECT DISTINCT "taxonomies".title FROM "taxonomies" WHERE "taxonomies"."type" IN ('Organization') ORDER BY title LIMIT 20
Completed 500 Internal Server Error in 19.4ms

ActiveModel::MissingAttributeError (missing attribute: default_info):
app/controllers/concerns/foreman/controller/auto_complete_search.rb:7:in `auto_complete_search'
app/models/concerns/foreman/thread_session.rb:33:in `clear_thread'
lib/middleware/catch_json_parse_errors.rb:9:in `call'

Search via API is same.

Commenting out the default_info in the organization extension leads to another error, but I am unsure if it is relevant.

```
Organization Load (0.4ms)  SELECT "taxonomies".* FROM "taxonomies" WHERE "taxonomies"."type" IN ('Organization') AND "taxonomies"."id" = 1 ORDER BY title LIMIT 1
Completed 500 Internal Server Error in 14.3ms
```

TypeError (can't convert Array into String):
app/controllers/application_controller.rb:342:in `set_taxonomy'
app/models/concerns/foreman/thread_session.rb:33:in `clear_thread'
lib/middleware/catch_json_parse_errors.rb:9:in `call'

This is a blocker issue for searching via API as it prevents getting org id.

Unsure what redmine category this falls into

Amos, do you have an idea how to solve this? this is generated by a scoped search query for the auto completer, where the ORDER and the SELECT query different fields.

- Related to Bug #4789: search auto completer on progress many times fail added

#4 - 03/26/2014 09:12 PM - Amos Benari

- Status changed from New to Ready For Testing

Can you test if scoped_search 2.7.1 fixes the issue?
