#3 - 03/05/2014 03:00 PM - Marek Hulán

I thought it was resolved in katello patch, here's the snippet that should do the trick

```
object_path = f.object.resource_type.pluralize.underscore
if object_path.include?('/')
  prefix, suffix = object_path.split('/', 2)
  send(prefix).send(suffix + '_path')
else
  send("#{object_path}_path")
end
```

a FilterHelper#resource_path (app/helpers/filters_helper.rb) should be adapted to this snippet, that should fix it
