### Description

We're missing various update.json.rabl and create.json.rabl files from the API views, so when doing an update or create (e.g. PUT to users) the API response doesn't match the "show" response.

```
$ ack -g show.json.rabl app/views/api/v2/ | wc -l
35
$ ack -g create.json.rabl app/views/api/v2/ | wc -l
19
$ ack -g update.json.rabl app/views/api/v2/ | wc -l
7
```
