<b>Pull request:</b>	<a href="https://github.com/foreman/foreman/pull/1403">https://github.com/foreman/foreman/pull/1403</a>	<b>Fixed in Releases:</b>	
<b>Description</b>		<b>Found in Releases:</b> Nightly	
I cannot change the parent of a hostgroup in version 1.5 via the UI.		<b>Red Hat JIRA:</b>	
I believe I could do it via the rails console by changing the "ancestry" field.

##### Revision e14b6968 - 09/09/2014 07:03 AM - Daniel Lobato Garcia

Fixes #4596 - Change parent of host group via AJAX

Reparenting host groups requires submitting the form to see the changes nowadays, this fix makes the host group model inherit all properties from the parent and show them in real time.

#### History

##### #1 - 03/11/2014 12:47 PM - Dominic Cleal

- Related to Feature #3939: add option to 'inherit from parent' for hostgroup attributes added

##### #2 - 03/11/2014 12:47 PM - Dominic Cleal

This was added in [#3939](#), but I can't see why. I remember agreeing to disable reparenting of orgs/locs as that was going to be overly complex, but AFAIK, host group reparenting is safe.

- Assignee set to Joseph Magen

I had a talk with Joseph and we are not sure why it was added in the first place, Joseph can you remove it?
