History

#1 - 03/11/2014 01:47 PM - Dominic Cleal

- Description updated

#2 - 04/24/2014 12:19 PM - Anonymous

- Target version set to 1.8.3

#3 - 04/29/2014 03:38 PM - Brad Buckingham

We may have some overlap in features. After some recent discussions around near-term requirements, the following features were created in the katello org:

<http://projects.theforeman.org/issues/5187>

<http://projects.theforeman.org/issues/5188>

Should we roll these up in to a single redmine issue?
Is this one that the foreman team is actively working on?

We also had similar features for enhancing the katello UI to display some foreman host provisioning details. For reference, a PR with those changes can be found at:

<https://github.com/Katello/katello/pull/4015>

#4 - 04/29/2014 03:40 PM - Dominic Cleal

- Is duplicate of Feature #5187: Systems/Hosts: There should be cross links from the Host details page to the equivalent Content Host details page added

#5 - 04/29/2014 03:40 PM - Dominic Cleal

- Is duplicate of Feature #5188: Systems/Hosts: The Host details page should indicate a basic subscription status that links to the subscription details on the Content Host page added

#6 - 04/29/2014 03:40 PM - Dominic Cleal

- Status changed from New to Duplicate

- Target version deleted (1.8.3)
